

Stokes Lectureship at GMIT in Biological Science

Post Title: Sustainable Natural Resource Management

Funding Agency: Science Foundation Ireland (Stokes Lectureship)

Description: GMIT's Centre for Sustainable Resource Development undertakes research to support the sustainable development of natural resources in Aquaculture, Agriculture, Built Environment, Forestry, Marine and Sustainable Energy.

Research Environment:

The Stokes Lecturer will join the group of academic staff and researchers in the Commercial Fisheries and Marine Biodiversity Research Groups. Both of these groups are actively engaged in the broad area of resource management as it applies to the aquatic environment.

Requirements/Background:

Candidates should have a PhD in aquatic ecology, aquatic conservation biology/ecology or a related field. Applications from candidates with applied experience of using technology towards sustainable resource management goals are welcome. They should have demonstrated performance through publication in peer reviewed journals and a track record of funding awards.

Project Start-Date: January, 2008

Project Duration: 5 Year Fixed Term

Conditions: SFI Award is valued at €90,000 per annum

Further Information on the Project: Mr. Seamus Lennon, Head of Physical and Life Sciences.

Please submit a detailed Curriculum Vitae along with a covering letter clearly indicating the specific area(s) you are interested in to:
