GMIT Mayo Campus

Academic Year 2018-2019

ABOUT THE CAMPUS

Galway-Mayo Institute of Technology (GMIT) is made up of five campuses. The Dublin Road Campus and the Art Campus are located in Galway city, the Furniture Technology Campus is in Connemara (85 km west of Galway) and the Agricultural Campus is in Mountbellew near Galway. The fifth multi-disciplinary Campus is in Castlebar, Co. Mayo (90 km north of Galway), which is where you will be studying.

The Mayo Campus of the GMIT is located on approximately 20 hectares of land less than 10 minutes' walk from Castlebar town. The Mayo Campus enrolled its first students in September, 1994. There are 1,300 students (of which 900 are full-time) studying at the Mayo Campus. Students enjoy the advantages of being part of a vibrant small student population with a high staff to student ratio. Students have access to excellent computing, videoconferencing and library facilities. An active sports programme has been very successful in national and international competitions. Student clubs cater to a range of interests, including culture, outdoor activities and politics. The campus was the first third level Institute of Technology to be awarded the FEE (Foundation for Environmental Education) Green Flag under the An Taisce Green Campus programme. The primary aim of the Institute is to provide high quality educational courses to students in order to prepare them for the future demands of the community in which they live and work.

ARRIVAL AT CASTLEBAR

On the last page of this booklet is a map of Castlebar town which shows the location of GMIT.

You will need warm clothes and waterproof jackets from September as it rains a lot in the West of Ireland.

When you arrive at GMIT Mayo Campus in Castlebar you enter the college through the main door and the reception desk is on your right. **Please report to reception on arrival.** Reception opening hours are: 9.00am – 4.30pm (Monday – Friday)

ADMISSION REQUIREMENTS

The admission of students to GMIT's programmes is based on trust between partners. The home institute must select the students to send to GMIT. GMIT in turn accepts these students onto its programmes provided that:

- (a) the number of students selected does not exceed the agreed flows in the Bilateral Agreement between the institutions, and is in the agreed subject areas
- (b) the students have built up enough ECTS (European Credit Transfer System) credits for entry to the desired level of the course. For example, for entry to 3rd year, students should already have 120 ECTS credits from their home institution. For entry to the final year of Degree Programmes however, each application is considered individually and entry is not automatic. Generally, in such cases, GMIT only accepts students from colleges with whom it has developed dual degree programmes.

APPLICATION PROCEDURES

The initial application is made to GMIT, (through Caitriona Cummins, International Officer at GMIT Galway) from the home institute. The normal format is a one-page CV in English with a passport photo as well as a transcript of subjects studied, with marks and credits received. The CV should ideally contain the following details:

- Last Name & First Name
- Home Address & Term Address
- Phone Numbers & E-mail address
- Date of Birth
- Name of College & Course & Number of years completed
- Work experience: employer's name; dates of employment; responsibility
- Interests & Hobbies.

Your college Information Package should be accompanied by Application Form and ECTS forms. The Application Forms have to be returned promptly to the International Officer, accompanied by a photo if one was not included with the original CV.

The ECTS form should be completed when you arrive at the college with assistance of the Lecturer and Erasmus Co-ordinator. Once completed, this form is sent to the International Officer, who sends it to your home institution so that they can approve the chosen subjects and agree to give credit to the student for work done abroad. They then send it back and you the student receive a copy of this learning agreement.

There are no absolute deadlines for applying to study in GMIT as an exchange student. However, it is expected that the initial application by the home institute is made by end of April for entry in September and by November for the second semester which commences at the end of January.

REGISTRATION

Every student at GMIT will be issued with an ID (Identification) Card. You will need to use this identification card throughout the academic year. It is also used to loan books from the library. You will also be given a password to access your student IT account. It is important that you activate this account in order to access Moodle (our learning management system) and other IT services including exam results.

COMPUTER ACCESS & E-MAIL

Each student at GMIT is issued with an e-mail address and computer access. You will be required to read and sign the regulations before being given access to the computers. The regulations stipulate the prohibition of sending offensive or disruptive mail, loading or using any software without authorisation, and damaging computer equipment or files. This is covered further in the Student Code of Conduct which will be issued to you when you register.

EXAMINATIONS 2018/19

It is necessary for you to register with GMIT to obtain your Student Identification Card and computer password. Please contact the Registration and Grants Officer, Mary Lammond in office Y005. You must have your Student ID Card with you when you sit examinations as proof of registration and identity.

The Winter Exams session is from 13 to 21 December 2018. The Summer Exams session is from 7 to 24 May 2019. There is a fee to pay for repeat examinations, these repeats typically take place in August and you should liaise with the respective lecturer before 20 June 2019.

Continuous Assessment (CA)

Within GMIT, many of the modules have an element of continuous assessment, whereby typically 30% or 40% (even 100% in some cases) of the module final remark is allocated to assignments completed by students (either individually or in groups) over the course of the academic year. **It is very important that students inform themselves of and submit CA assignments throughout the year.** If you would like more explanation on Examinations and Continuous Assessment don't hesitate to ask Niamh Hearns when you start your studies at GMIT Mayo Campus.

ECTS (European Credit Transfer System)

GMIT uses the ECTS system throughout all its programmes. The modules which make up each academic year of each programme are awarded credits. The number of credits awarded to each module are indicated in the programme descriptions. To be awarded these credits, students must successfully complete the workload associated with the module and pass the final examination where relevant.

Each student is expected to complete the Learning Agreement form after arrival in GMIT. This form is signed here and returned to the home college for approval of module choices and confirmation that full academic recognition will be given in the home institute for the modules studied abroad.

On completion of exams, examination results will be available from the college's IT system which you will be able to access on-line

Opening a Bank Account

A bank account can be opened through the bank (Allied Irish Banks) on the Mayo Campus. Documents required are as follows:

1. Passport or Student ID Card
2. Letter to confirm that you are a registered student
3. Letter from your Accommodation Landlord

Cost of Living

A breakdown of approximate monthly cost of living expenditure is as follows:

- Room Rental € 400.00
- Heat & Electricity € 40.00
- Food € 200.00 - this is a conservative estimate
- Social life € 250.00 - this is a conservative estimate and doesn't include travel around the country

When you first arrive there will also be the additional expense of deposit on your accommodation which could be around €400 and the purchase of books for your studies. It would be wise to overestimate your monthly budget in the initial months and these additional funds will enable you to "live" here rather than just "survive".
